WORK EXPERIENCE

2 Nov 2015–16 Dec 2016

Full Stack Web Developer

Hyper6, Remote Work (Venezuela)
https://hyper6.com

-100% remote work

-While working for hyper6, one of the things they offer is Outsourcing work, in which you have to accomodate to the Company's worktime and culture

-Developing and maintaining the software used by Hyper6 and his employees

-I was the only person with the labor of handling Back End work, since the company consist in mostly designers and Front End developers, and from time to time, a task that handles the full scope of the project was passed to me

-1 of 5 developers that had to convert other's people design to actual code (PSD to HTML/Android/iOS)

-Handled with the task of learning new technologies and then explain them to the other employees of the company

23 Feb 2015–23 Oct 2015

Web Developer and then Lead Developer

La Fuente Digital, Carabobo (Venezuela)

-Mantenimiento de servidores de la empresa y de los clientes

-Maintenance and develop of diverse web and mobile applications for our distinguished clients such as: Copas Airlines, Honda Panamá and Mi País Tu Destino (TV Show)

-Design and Develop of 3 new landings to be the face of the company on social networks, emails and websites

-When i became a Lead Developer i have to led the architecture that had to use a company to function properly

8 Nov 2013–20 Feb 2015

Computer systems analyst intern

Vicson Bekaert, Carabobo (Venezuela)
http://vicson.bekaert.com/

-Systems Analyst

-Diseñador de sistemas automatizados

-IT support

-Developed a webapp for managing the company phone book implementing fuzzy search that works with intranet

-Developed an app for controlling printer counters in the network company forecasts and made chart estimates involving pricing, billing expenses and by providing a simple graphical view for the senior management.
